

Move Your SecOps Forward with Logsign

Security Orchestration, Automation &
Response Platform

Automated workflows, better investigations, faster response.

Datasheet

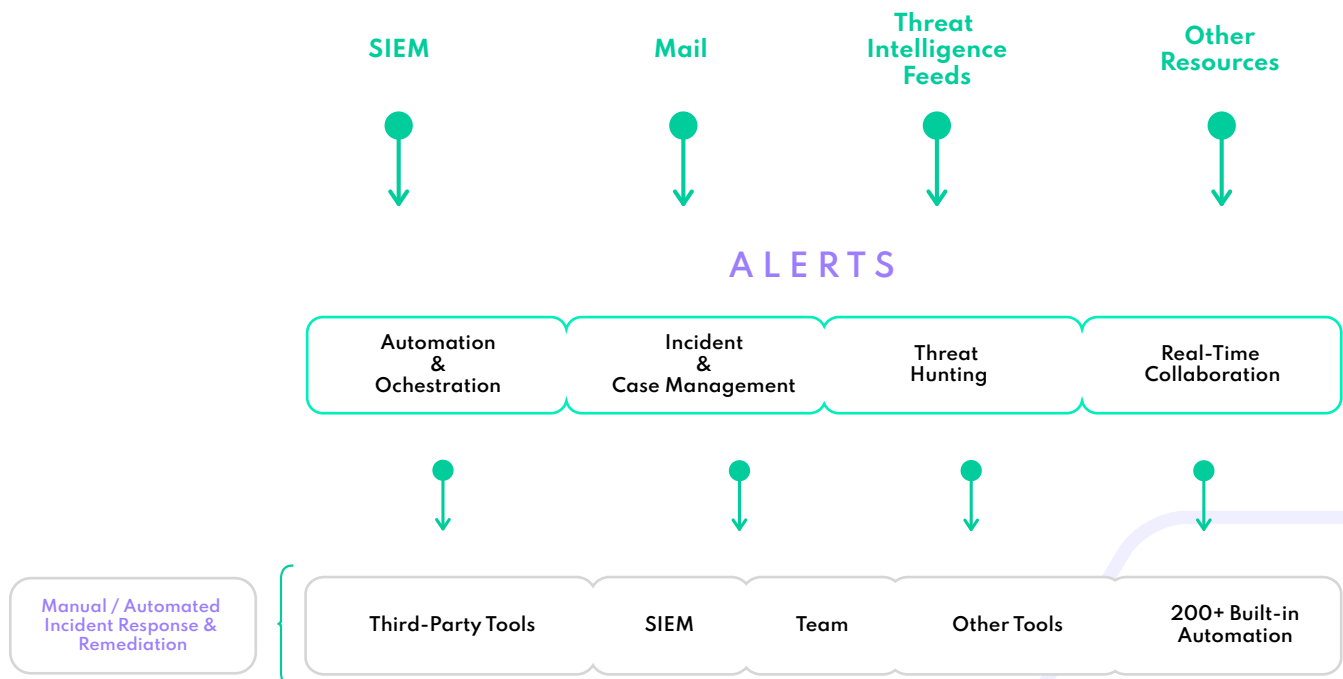

Why SOAR?

- 01 | Automate repetitive, time-consuming tasks and workflows
- 02 | Force multiplier effect on security teams.
- 03 | Shorten response times.
- 04 | End-to-end incident life cycle management

Power of Automation

You can easily automate repetitive, manual, time consuming tasks, enrich the data, investigate, detect, prioritize and respond. It's easy to automate workflows with bots and playbooks. These automations shorten response times to human centric decision needed cases. API first approach provides hundreds of pre-defined and two-way integrations. Vendor-free integration capability is empowered with free plugin services. Logsign SOAR is an independent platform so there is no limit or barriers to integrate any security tools that you use in your SOC operations.

- Automated workflows
- Automated threat hunting
- Automated incident triage
- Automated case escalation or grouping
- Automated incident response

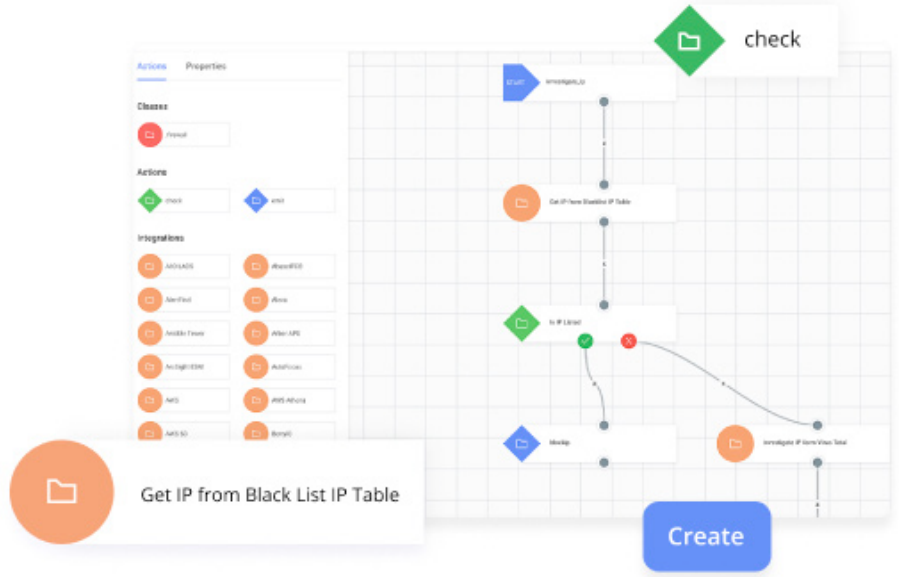

Force Multiplier: Bots & Playbooks

Keep the work flowing with interactive bots & playbooks.

Pre-defined, customizable bots and playbooks

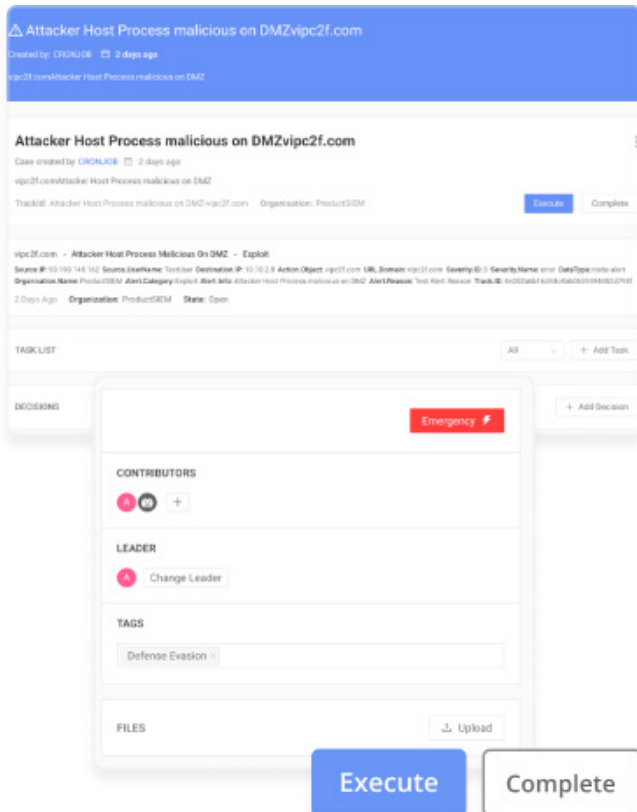

Codeless, Drag-and-Drop Visual
Playbook Editor

Logsign bots and playbooks are designed smartly to enhance your security analysts, not replace them. Easily automate your workflows with interactive and multidirectional Logsign Bots and playbooks.

Communication Driven Case Management

Comprehensive incident life cycle management ensuring everybody is on the same page, can communicate easily and contribute to cases.

Empowered incident investigation and triage

Automated or 1-click incident response

Automated or manual case/task assignment

Automated or manual case grouping

Contribution & information sharing

SLA creation and pinning the important points.

Knowledgebase

It is your organization's cyber archive that allows security analysts to get knowhow or insight about the past, or share their information and experience easily and provide new insights in the environment.

Whether you have a **SOC** team or not, it's better to run security operations much more efficiently to provide value to your organizations with Logsign **SOAR**.

Workbench

Logsign SOAR opens with a customized workbench that includes SLAs, emergency tasks, prioritized cases, and goals all on a single screen. This allows analysts to focus on highly critical tasks first and make the right moves at the right time.

Logsign is a Security Information and Event Management (SIEM) solution which provides security analyses and compliance to regulations in one platform. Founded in 2010, Logsign believes that cyber security is a teamwork and that security products have to be much smarter. With this conviction, it focused its endeavors on Security Intelligence and SOC solutions. It actively provides services for more than 500 medium and large scale firms and governmental agencies. It is working to be an irreplaceable team-mate for all of its stakeholders in the field of cyber security, to raise its customers' security awareness to the maximum and to reinforce their position concerning security. It also proved its competence in the field of technology as a cyber security software producer, landing among Deloitte Technology EMEA Fast 500 in 2017 for the second time.
